Employment History

EVC Ventures Pvt. Ltd.

Python Developer

Gurgaon

Feb 2021- May 2023

Responsibilities: Development, Support and Management of the product.

Technical Stack: Python, Flask, Django, Django Rest Framework, PostgreSQL.

Projects

- Created a Python CLI tool utilizing Dialogflow API to generate detailed CSV reports on intent matching accuracy, enabling users to optimize their models effectively.
- Developed a BOT Dump Tool using Python and the Dialogflow API to efficiently retrieve and store over 30,000 data records in CSV format, enabling seamless data management and analysis.
- Implemented a login API for the chatbot using Python Flask framework, facilitating secure user authentication and authorization processes, ensuring seamless integration of the chatbot with the backend system.
- Responsible for writing webhook responses in Python Flask for the chatbot, enabling dynamic actions and seamless integration with external services and APIs.
- Demonstrated strong problem-solving skills in identifying and resolving technical challenges related to the chatbot's API and integration processes.
- Led the setup of the chatbot on Dialogflow, configuring intents, entities, and responses to enhance conversational capabilities and ensure a seamless, user-friendly experience.
