SUMMARY

I have 7 years of experience in software development in different technologies. I have professional experience in mobile application development using Flutter, Swift pogromming languages and publishing it to AppStore. I follow the UI/UX designs to keep it pixel perfect to make it intuitive user experiences. Experience in building REST-API's, Micro Services, Frameworks, SDKS using many languages such as golang, dotntet & rust.

I also worked as a Ethical Hacker.

I architect mobile application as per the industry followed design patterns to make it robust, reusable and testing independently. I implement design patterns such as MVC, MVVM patterns based on the complexity of the application as best practices which helps in easy code management and better coordination on a team based development.

i have hands-on experience using firebase and mongodb.

I comply with agile based development approaches to keep the development process on track and follow strict on deliverables as per the communicated schedule

I am self motivated & strong developer, working for excellent results!

NDA *May 2020 - Dec 2020*
helped on one of my friends microservice platform dotnet.

OPEN-SOURCE PROJECTS

pranaOS
Operating System - C/C++
Operating System Built For x86 & arm architecutre

Link: https://github.com/pranaOS/pranaOS

vulture
Unix Operating System - Golang
Unix Operating System Built Using Golang

Link:https://github.com/vultureOS/vulture

godzilla
Powerfull Full-Stack Web Framework - Golang
Full-Stack Framework Built Using Golang

Link: github.com/godzillaframework/godzilla

smartnano
Smart-Contract Language - Golang
Built a framework that powers the development of smart-contracts & supports transactions

Github: https://github.com/NanoOfficial/smartnano

nanocloud
Cloud Platform - Golang
Self-Hosting Cloud Service For Building Decentralised Games/Applications

STILL IN WORK

Github: https://github.com/NanoOfficial/nanocloud

micronano
Decentralised Microservice Framework - Golang
Decentralized Microservice Framework Built For Go

Github: https://github.com/NanoOfficial/micronano

kingkong

Web Framework - Rust
Web Framework Built Using Rust

Link: https://github.com/kingkongofficial/kingkong

rusty_flutter

Rust + Flutter Embedder

A Simple Rust + Flutter Embedder Engine

Link: https://github.com/krishpranav/rustyflutter

nanodb

Decentralised database build using rustlang https://github.com/NanoOfficial/nanodb

nanostack

Full Stack Web Application Framework Built Using Rust
https://github.com/NanoOfficial/nanostack

nanolang

Smart Contract Language Similar To Solidity Built Using Rust
https://github.com/NanoOfficial/nanolang

now_btc_wallet

Bitcoin Wallet - Flutter

Bitcoin Transaction Wallet Built For Mobile Applications

** STILL IN DEVELOPMENT**

Link: https://github.com/now-wallet/now_btc_wallet

EDUCATION

ECE

Nachimuthu Polytechnic Collage *Jun 2019 - Apr 2023*
ECE at NPT
